**COMMENTS
OF
LOGAN TELEPHONE COOPERATIVE INC.**

Logan Telephone Cooperative Inc. (Logan) (SAC 260413) hereby submits the following challenge regarding certain census blocks in its Kentucky study area being designated as “wired-served” in v2.2 of the Alternative Connect America Cost Model (A-CAM). A review of the June 30, 2015 FCC Form 477 data identified competitive providers which may have led to the “served” designation. “Attachment A” of this filing provides a list of census blocks for which Logan seeks to contest the existence of a qualifying competitor, organized by the competitor identified in Form 477 data as serving in the block. Below is a narrative on each of the competitors demonstrating how they fail to offer service meeting all of the requisite requirements in the blocks being challenged.

City of Russellville Electric Plant Board

The City of Russellville Electric Plant Board (Russellville EPB) does not offer retail broadband service anywhere in Logan’s study area. “Attachment B” is an affidavit from the Russellville EPB attesting to this. The data that the Russellville EPB filed in their June 2015 and December 2015 Form 477s which indicates that they offer broadband service in the contested census blocks was erroneous. On April 22, 2016, the Russellville EPB filed corrections to their Form 477 June

2015 and December 2015 data, which removed the provision of broadband in the contested census blocks.

Suddenlink Communications

Suddenlink Communications does not offer voice or broadband service throughout the contested census blocks. “Attachment C” shows online chats between a Logan staff person and a Suddenlink customer service representative. The Logan staff person inquired about the availability of service from Suddenlink at one or two addresses in each of the contested blocks. The Suddenlink representative responded that service is unavailable at all of the addresses for which an inquiry was made for the census blocks being challenged.

Comcast Cable Communications LLC

Comcast Cable Communications does not offer voice or broadband service throughout the contested census block. “Attachment D” shows an online chat between a Logan staff person and a Comcast customer service representative. The Logan staff person inquired about the availability of service from Comcast at two addresses in the census block. The response from the Comcast representative was that service is unavailable at both addresses.

Respectfully submitted,

/s/ Gregory A. Hale

AFFIDAVIT

STATE OF KENTUCKY

COUNTY OF LOGAN

BEFORE ME, the undersigned authority, on this day personally appeared Stacey Cundiff of the Electric Plant Board of the City of Russellville, KY ("EPB"), who on her oath deposed and said:

1. My name is Stacey Cundiff. I am employed by EPB in the position of accountant. In this position, I am currently responsible for the filing of Form 477 data at the FCC.
2. On April 22nd, 2016 we were notified by General Manager Greg Hale of Logan Telephone Cooperative that he had discovered some errors in our previous Form 477 filings.
3. General Manager Hale said our filings in June 2015 and December 2015 represented that we served all Logan Telephone Cooperative service areas with fiber services.
4. Our June 2015 and December 2015 data files used for filings were made by a former employee no longer employed by EPB.
5. After researching the issue, we found that these filings did contain errors. We immediately modified the data for the June 2015 and December 2015 filings and uploaded the corrected information on April 22nd, 2016.
6. EPB does not provide any retail broadband services in the ILEC service areas of Logan Telephone Cooperative.

7. The matters addressed above are within my personal knowledge and are true and correct.

Signature

Stacey Cundiff
Accountant
City of Russellville Electric Plant Board
skcundiff@epbnet.com
270-847-4750

Sworn and subscribed before me, the undersigned authority, on this the 27th day of April, 2016.

Notary Public, State of Kentucky

My Commission expires 8/07/17.

(SEAL)

4/26/2016 Comcast Inquiry:

Dunmor	211779608001000	238 Ralph Lane	42324	Comcast	Belton
	211779608001000	425 Myers Chaple	42324	Comcast	Belton

The screenshot shows a Mozilla Firefox browser window with the address bar set to "about:blank". The main content area displays a transcript of a live chat conversation with Comcast support. The transcript is formatted with bullet points for each message, indicating the speaker (chat id, problem, Scott_, Neeraj) and the content of the message. The conversation discusses service availability at two addresses in Belton, KY. A "Print" button is visible in the bottom right corner of the chat window.
